How to use this guide. Sections follow the order of a typical first session — account setup, workspace navigation, then day-to-day features. Labels in **bold boxes** match the exact text shown in the Samtal interface.

01 Introduction

Samtal is a conferencing workspace for organizations. After signing in, members work inside one shared application that brings together meetings, calendar, contacts, messages, recordings, templates, reports, and workspace settings.

This guide explains the essential workflows using the exact labels that appear in the product, so you can follow along on screen as you read.

What you will learn

Account & Navigation

Create an account, sign in, and find your way around the Dashboard and sidebar.

Core Modules

Start or schedule meetings, and use Calendar, Contacts, Messages, and Recordings.

Workspace Administration

Manage members, dedicated rooms, and billing from the Workspace area.

Personal Settings

Update your profile, notifications, and account preferences.

02 Getting Started

You need a supported desktop browser, a valid email address, and network access to your organization's Samtal site. A workspace invitation may be required before you can join an organization.

Recommended first path

- 1 Create an account (**Sign up**) or accept an invite.
- 2 Sign in with your email and password.
- 3 Open the **Dashboard** and explore the sidebar.
- 4 Create a meeting with **New Meeting** .

Primary navigation

The left sidebar is used throughout the application to move between modules:

03 Sign Up / Sign In

1. Create an account

Open [Get started](#) or go to </auth/sign-up>. Enter first name, last name, work email, and password. Optionally add a company name and team size. Accept the Terms, then click [Create Account](#).

Figure 1 — Sign up

2. Sign in to your workspace

Open [Sign in](#) or go to </auth>. Enter your email address and password. Optionally keep [Remember me](#) selected, then click [Sign in](#). A successful sign-in takes you to the Dashboard.

Figure 2 — Sign in

Notes — Use [Forgot password?](#) on the sign-in page if you need a reset link. Google sign-in appears when it is configured on the server; Microsoft sign-in may show as unavailable until configured.

04 Dashboard

After signing in, the Dashboard opens automatically. From here you see a welcome message, meeting summaries, and shortcuts. Use the sidebar to move between modules.

Figure 3 — Dashboard

New Meeting. Use the header control [New Meeting](#) to start an [Instant meeting](#) or create a [Scheduled meeting](#). Choose [Create & join](#) for an instant room, or [Create meeting](#) for a scheduled one.

05 Main Features

1. Meetings

Open [Meetings](#) in the sidebar. Review upcoming and past meetings, join a room, or create a new one with [New Meeting](#). Hosts can use waiting rooms and in-room controls such as mute, camera, screen share, whiteboard, and chat.

Figure 4 — Meetings

2. Calendar

Open **Calendar**. Switch between month, week, and day views. Open a scheduled item to join the related meeting without leaving the workspace.

Figure 5 — Calendar

3. Contacts

Open **Contacts** to find people in your organization. Use contacts when starting conversations or inviting participants to meetings.

Figure 6 — Contacts

4. Messages

Open **Messages** for direct and team conversations. Select a thread, send messages, and keep chat next to the people you meet with.

Figure 7 — Messages

5. Recordings

Open **Recordings** to browse sessions stored on the workspace. Play, share, or download recordings when your plan and permissions allow it.

Figure 8 — Recordings

6. Templates

Open **Templates** to reuse meeting templates and start recurring agendas faster.

Figure 9 — Templates

06 Reports & AI Insights

7. Reports

Open **Reports** to review meeting and usage information for your organization. Availability of advanced reporting depends on the workspace plan.

Figure 10 — Reports

8. AI Insights BETA

Open **AI Insights** to view beta insights related to workspace activity. The Beta badge in the sidebar marks this as an early feature — availability and content may change as the product evolves.

Figure 11 — AI Insights

07 User Account / Profile

1. Open Settings

Select **Settings** in the sidebar (or open your profile menu). Update your profile details, notification preferences, and account options on the Profile and Account screens.

Sign out from the profile menu in the header when you finish your session on a shared device.

Figure 12 — Settings

08 Meeting Workflow

Create a meeting

- 1 Click **New Meeting** in the header.
- 2 Choose **Instant meeting** or **Scheduled meeting**.
- 3 Enter the required title and schedule details if needed.
- 4 Click **Create & join** or **Create meeting**.

Inside the live room

Use the control bar for Mic, Camera, Raise Hand, Screen, Participants, Chat, Whiteboard, and Leave. Guests may wait in a waiting room until a host admits them. Optional recording depends on plan permissions.

Figure 13 — Meetings list used to open or create rooms

09 Organization Management

Workspace owners and admins manage people and rooms from **Workspace** in the sidebar.

1. Invite and manage members

Open **Workspace → Members**. Click **Invite members**, enter email addresses, and assign roles such as Owner, Admin, or Member. Pending invites appear until accepted.

Figure 14 — Members

2. Manage rooms

Open **Workspace → Rooms**. Create dedicated rooms for recurring work and manage their status from the list.

Figure 15 — Rooms

3. Review Billing & Plan

Open **Billing & Plan** to see Free, Pro, or Enterprise capacity for participant minutes, members, concurrent meetings, and recording storage. Upgrade when your organization needs more capacity.

Figure 16 — Billing & Plan

10 Important Settings

A quick reference for where each personal and organizational setting lives.

Setting	Description
Profile	Name, avatar, and personal details.
Account	Sign-in related account options.
Workspace	Organization name and workspace configuration.
Members	Invitations and roles.
Rooms	Dedicated meeting rooms.
Billing & Plan	Plan limits and upgrades.

Only **owners** and **admins** can change organization-level settings. Members retain access to meetings, messages, and personal settings.

11 Troubleshooting

Issue	What to try
Cannot sign in	Confirm email and password. Use Forgot password? if needed. Check that Caps Lock is off.
Blank page after sign-in	Refresh the browser. Confirm you are using the same site origin configured for the workspace.
Cannot join a meeting	Ask the host to admit you from the waiting room. Confirm you used the invited email.
No camera or microphone	Allow browser permissions, then re-open the meeting room.
Missing Reports features	Reports and auto-record scale with the workspace plan. Check Billing & Plan.
Invite not received	Ask an admin to resend the invite and check spam. Invites use the public site origin.

12 Frequently Asked Questions

Where do I create a meeting?

Use [New Meeting](#) in the header from almost any signed-in page, or open [Meetings](#) in the sidebar.

What is the waiting room?

Guests can wait until a host admits them. Hosts control admission from the live meeting.

Can I share my screen?

Yes. In the live room, use [Screen](#) on the control bar.

Where are recordings stored?

Open [Recordings](#). Storage limits follow the organization plan shown under Billing & Plan.

Who can invite members?

Workspace owners and admins invite people from [Workspace → Members](#).

What does AI Insights (Beta) mean?

It is an early feature. Availability and content may change as the product evolves.

13 Support & Contact

Workspace access issues

Contact your organization owner or admin first.
They control invitations, roles, and plan upgrades.

Product or deployment support

Contact your Samtal administrator or the team
that provided your site URL.
