How to use this guide. Sections follow a typical first session — account setup, then the exact screens you click. Labels in **blue chips** match the Samtal interface word-for-word. Every screenshot shows the full viewport; images are scaled to fit, never cropped.

01 Introduction

Samtal is a conferencing workspace for organizations. After signing in, members work inside one shared application that brings together meetings, calendar, contacts, messages, recordings, templates, reports, rooms, billing, and workspace settings.

This guide explains essential workflows using the exact labels that appear in the product, so you can follow along on screen as you read.

What you will learn

Account & Navigation

Create an account, sign in, and find your way around the Dashboard and sidebar.

Meetings

Start Instant or Scheduled meetings from **New Meeting** , then join the live room.

Workspace Administration

Invite users, create rooms, and manage Billing & Plan upgrades with payment.

Personal Settings

Update profile, notifications, and account preferences from Settings.

02 Getting Started

You need a supported desktop browser, a valid email address, and network access to your organization's Samtal site. A workspace invitation may be required before you can join.

Recommended first path

- 1 Create an account (**Sign up**) or accept an invite.
- 2 Sign in with your email and password.
- 3 Open the Dashboard and explore the sidebar.
- 4 Create a meeting with **New Meeting** .

Primary navigation

The left sidebar is used throughout the application to move between modules:

03 Sign Up / Sign In

1. Create an account

Open [Get started](#) or go to </auth/sign-up>. Enter first name, last name, work email, and password. Optionally add a company name and team size. Accept the Terms, then click [Create Account](#).

Figure 1 — Sign up

2. Sign in to your workspace

Open [Sign in](#) or go to </auth>. Enter your email and password. Optionally keep [Remember me](#) selected, then click [Sign in](#). A successful sign-in takes you to the Dashboard.

Figure 2 — Sign in

Notes — Use [Forgot password?](#) on the sign-in page if you need a reset link. Google sign-in appears when it is configured on the server; Microsoft sign-in may show as unavailable until configured.

04 Dashboard

After signing in, the Dashboard opens automatically. From here you see a welcome message, meeting summaries, insights, calendar, and quick actions. Use the sidebar to move between modules.

Figure 3 — Dashboard

New Meeting. Use the header control **New Meeting** to start an **Instant meeting** or create a **Scheduled meeting** . Choose **Create & join** for an instant room, or **Create meeting** for a scheduled one. Full click paths are in the next section.

05 New Meeting — Instant & Scheduled

Meetings start from the blue **New Meeting** button in the top header. It is available from almost every signed-in page.

EXACT CLICK PATH

1. Click **New Meeting** in the header.
2. The menu opens with two choices: **Instant meeting** and **Scheduled meeting**.
3. Pick one — each opens its own dialog with the fields shown below.
4. Fill the form, then confirm with **Create & join** or **Create meeting**.

Step A — Open the New Meeting menu

Click **New Meeting**. The dropdown shows:

- **Instant meeting** — “Add a title, then jump into the live room.”
- **Scheduled meeting** — “Choose title, date, and participants.”

Figure 4 — New Meeting menu: Instant meeting and Scheduled meeting

Step B — Instant meeting

Choose **Instant meeting**. The dialog title is **Start instant meeting**.

- 1 Enter a **Title** (required).
- 2 Set **Duration (minutes)** if needed (default 30).
- 3 Optionally add agenda items with **+ Add item**.
- 4 Optionally invite guests under **Invite by email (guests)**, then **Add**.
- 5 Click **Create & join** to enter the live room immediately (or **Cancel**).

Figure 5 — Start instant meeting dialog (Create & join)

Teammates. Workspace members on your teams are added automatically. Use guest email invites only for people outside your teams.

Step C — Scheduled meeting

Choose **Scheduled meeting**. The dialog title is **Schedule a meeting**.

- 1 Enter a **Title**.
- 2 Pick **Date & time**.
- 3 Set **Duration (minutes)**.
- 4 Optionally add agenda topics and guest emails.
- 5 Click **Create meeting** (not Create & join) to save it on the calendar.

Figure 6 — Schedule a meeting dialog (Create meeting)

Inside the live room

Use the control bar for Mic, Camera, Raise Hand, Screen, Participants, Chat, Whiteboard, and Leave. Guests may wait in a waiting room until a host admits them. Optional recording depends on plan permissions.

06 Main Features

1. Meetings

Open **Meetings** in the sidebar. Review upcoming and past meetings, join a room, or create a new one with **New Meeting**. Filter by All, Live, Upcoming, Ended, or Cancelled.

Figure 7 — Meetings

2. Calendar

Open **Calendar**. Switch between month, week, and day views. Open a scheduled item to join the related meeting without leaving the workspace.

Figure 8 — Calendar

3. Contacts

Open **Contacts** to find people in your organization. Use contacts when starting conversations or inviting participants to meetings.

Figure 9 — Contacts

4. Messages

Open **Messages** for direct and team conversations. Select a thread, send messages, and keep chat next to the people you meet with.

Figure 10 — Messages

5. Recordings

Open **Recordings** to browse sessions stored on the workspace. Play, share, or download recordings when your plan and permissions allow it.

Figure 11 — Recordings

6. Templates

Open **Templates** to reuse meeting templates and start recurring agendas faster.

Figure 12 — Templates

07 Invite & Add Users

Workspace owners and admins add people from **Settings** → **Members** (also reachable via **Workspace**).

EXACT CLICK PATH — ADD A NEW USER

1. Open the sidebar → **Settings** (or Workspace → Members).
2. In the settings sections list, click **Members** .
3. Click **Invite Members** (header also shows **Create Member**).
4. You land on the **Create User** screen.
5. Fill the form and click **Create User** .

Members list

Search members, filter by role (Owner, Admin, Member), and manage existing people from the table.

Figure 13 — Members list with Invite Members

Create User screen (what you fill in)

After clicking [Invite Members](#), the Create User page shows:

- **User Information** — [Full Name *](#), [Work Email *](#), optional phone, department, job title.
- **Role & Access** — Role [Member](#) or [Admin](#), optional Reports To, Default or Custom Access.
- [Send Invitation](#) switch (on by default) — user receives an email invitation.
- Right side: **User Preview** and **Role & Permissions** checklist.
- Footer actions: [Cancel](#) or [Create User](#).

Create User

Workspace > Members > Create User

Add a new user to your organization and set their role and access.

08 Create Room

Dedicated rooms are managed under Settings → **Rooms** . Use them for recurring spaces with their own capacity and permissions.

EXACT CLICK PATH — CREATE A ROOM

1. Open **Settings** → **Rooms** .
2. Click **Create Room** (page header or empty-state button).
3. Fill Room Information, optional members, and Room Settings toggles.
4. Click **Create Room** at the bottom (or top) of the form.

Rooms list

Figure 15 — Rooms list (Create Room)

Create Room form (fields you use)

- **Room Name *** , **Room ID *** , Description, **Capacity *** , Room Type, Department, Tags, optional image.
- **Room Members** — search and **Add Member** .
- **Room Settings** toggles — Allow recording, Allow chat, Screen sharing, File sharing, Waiting room, Room approval.
- Right side shows a live **Room Preview** .

09 Upgrade & Payment

Plans control participant minutes, members, concurrent meetings, and recording storage. Free, Pro, and Enterprise are compared on Billing & Plan.

EXACT CLICK PATH — UPGRADE WITH PAYMENT

1. Click sidebar **Upgrade** , or open **Settings** → **Billing & Plan** .
2. On the summary, click **Open full billing** (or go to **/app/billing**).
3. Compare Free / Pro / Enterprise cards.
4. Click **Pay \$49.00 · Upgrade to Pro** (or Enterprise).
5. In the checkout dialog, enter card details and click **Pay \$49.00** .

Billing summary (Settings)

Demo checkout. In demo deployments, payment may be simulated with no real charge. Only brand, last 4 digits, and expiry are stored for the payment method on file.

10 Reports, AI Insights & Settings

Reports

Open **Reports** to review meeting and usage information. Advanced reporting depends on the workspace plan.

Figure 20 — Reports

AI Insights **BETA**

Open **AI Insights** for beta insights related to workspace activity. Availability and content may change as the product evolves.

Figure 21 — AI Insights

Settings & profile

Select **Settings** in the sidebar (or open your profile menu). Update profile details, notification preferences, and account options. Sign out from the profile menu when you finish on a shared device.

Figure 22 — Settings

11 Important Settings Reference

A quick reference for where each personal and organizational setting lives.

Setting	Description
Profile	Name, avatar, and personal details.
Account	Sign-in related account options.
Workspace	Organization name and workspace configuration.
Members	Invitations, Create User, and roles.
Rooms	Dedicated meeting rooms and Create Room.
Billing & Plan	Plan limits, Open full billing, and upgrades.
Branding / Security	Organization appearance and security controls (admin).

Only owners and admins can change organization-level settings. Members retain access to meetings, messages, and personal settings.

12 Troubleshooting

Issue	What to try
Cannot sign in	Confirm email and password. Use Forgot password? . Check Caps Lock.
Blank page after sign-in	Refresh the browser. Use the same site origin configured for the workspace (prefer localhost over 127.0.0.1 when testing locally).
Cannot join a meeting	Ask the host to admit you from the waiting room. Confirm you used the invited email.
No camera or microphone	Allow browser permissions, then re-open the meeting room.
Missing Reports features	Reports and auto-record scale with the plan. Check Billing & Plan.
Invite not received	Ask an admin to resend the invite and check spam.

13 Frequently Asked Questions

Where do I create a meeting?

Use **New Meeting** in the header from almost any signed-in page, or open Meetings in the sidebar. Choose Instant or Scheduled.

What is the difference between Create & join and Create meeting?

Create & join starts an Instant meeting and opens the live room now. **Create meeting** saves a Scheduled meeting for later.

How do I add a new user?

Settings → Members → **Invite Members** → fill Create User → **Create User** .

How do I create a room?

Settings → Rooms → **Create Room** → fill the form → **Create Room** .

How do I upgrade and pay?

Billing & Plan → Open full billing → **Pay · Upgrade to Pro** (or Enterprise) → enter card → Pay.

What is the waiting room?

Guests can wait until a host admits them. Hosts control admission from the live meeting.

Can I share my screen?

Yes. In the live room, use Screen on the control bar. Rooms can also require Screen sharing in Room Settings.

Where are recordings stored?

Open Recordings. Storage limits follow the organization plan under Billing & Plan.

What does AI Insights (Beta) mean?

It is an early feature. Availability and content may change as the product evolves.

Support & Contact

Workspace access issues

Contact your organization owner or admin first. They control invitations, roles, and plan upgrades.
